1.1 Castor wheels to base installation

1.2 Post assembly to base installation

2. Install telescopic mounting poles

Step 1. Unscrew safety cap screw on right lower poles assembly by using E2 (6mm Allen key) from hardware pouch. Put safety cap screws aside. As shown in Fig-1

Step 2. Use left hand thumb or index finger to depress spring ball located at the right lower pole (Near cable window), at the same time use right hand twist and pull right upper poles (Clockwise or anti-clockwise either directions will do) upward until your desired height. Use height label indicator on pole as guide. Then twist upper pole toward plunger holes direction and engaged spring ball into the plunger hole and set. Secure safety cap screw firmly as shown in Fig-2 (You may need another person to help).

Step 3. Repeat step 1 and 2 on left poles assembly.

Warning:

Please make sure the spring ball is pop-up state after installation. It will cause personal injury if not operate.

Warning:

Please make sure the safety screws are tight. It will cause personal injury if not operate.
